

AMERICAN ZINC RECYCLING

Environmental Policy

As a leading provider of environmental and recycling services, American Zinc Recycling processes industrial and hazardous wastes to recover valuable materials while mitigating the potential environmental liabilities of our customers. Our company serves a key role in promoting the principles of sustainable development while avoiding potential negative impacts to the environment.

AZR is committed to enhancing the environment through the following principles:

BE A GOOD CITIZEN / We will strive to meet or exceed the standards set forth in applicable laws and regulations. We aim to be a valued member of the communities in which we operate.

REDUCE WASTE / We will seek opportunities to recover valuable resources from by-products and wastes while maintaining a system which enhances the positive impact of our operations on the environment.

PROMOTE ENVIRONMENTAL AWARENESS / We will communicate our environmental commitments to our stakeholders.

STRIVE TO BE BETTER / We will implement a system which continuously improves our environmental performance. We will drive environmental improvement by establishing programs which achieve measurable and verifiable results.
